The WalkWorks program creates walking groups in communities to provide opportunities for physical activity. Currently there are 9 walking routes across Indiana County in Blairsville, Ernest, Glen Campbell, Homer City, White Township, Indiana Borough, Clymer Borough, Saltsburg Borough and at IRMC.

The Indiana County WalkWorks program is a collaboration between the Indiana County Office of Planning & Development, Pennsylvania Department of Health, and the University of Pittsburgh Graduate School of Public Health to increase opportunities for physical activity across Indiana County. Through this grant funded program, planners partner with local communities to identify walking routes and form sustainable walking groups that will enhance and expand active transportation networks with the ultimate goal of improving the health of county residents.
